Art Unit: 1626

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1 to 24, 32 to 55 and 63 to 79, drawn to fluorescent compounds, kits and method of detecting biomolecules, classified in classes 548, 562, 435 and 436, various subclasses.
- II. Claims 25 to 31, 56 to 62 and 80 to 87, drawn to fluorescent compounds, kits and method of detecting biomolecules, classified in classes 548, 562, 435 and 436, various subclasses.

The inventions are distinct, each from the other because of the following reasons:

The compounds of Group I are patentably distinct from the compounds of Group II because of their structural differences. The compounds of Group I contain sulfonic acid salt groups and the compounds of Group II contain sulfonamide groups. Therefore a reference, which anticipates one of the groups, would not even render obvious the remaining group.

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art because of their recognized divergent subject matter, restriction for examination purposes as indicated is proper.

Art Unit: 1626

In addition, it would be an undue burden on the examiner if all of the claims were searched in a single application as separate patent, literature and computer searches would need to be done.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Fiona T. Powers whose telephone number is 571-272-0702. The examiner can normally be reached on Monday - Friday 8:00 AM to 4:30 PM.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Joseph K. McKane can be reached on 571-272-0699. The fax phone number for the
